

DECORATIVE GRILLES

EYE-CATCHING ART
THAT BREATHES QUALITY.

The perfect union of form and function. That's our goal with every decorative supply and return grille—bring air in and move air out of any space, beautifully. Whether your grille design is a focal point for your project or simply complements the décor, KEES equips architects and designers with a variety of options to let creativity—and air—flow. With a wide selection of patterns, materials and finishes, the only limit is your imagination. That's why customers come back to us time and again for solutions that enhance any architectural style.

STANDARD SOLUTIONS

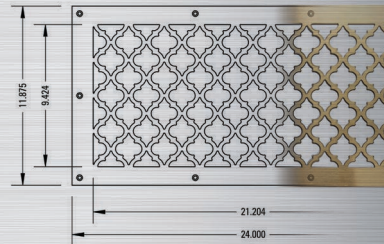

PREMIUM SOLUTIONS

DECORATIVE GRILLES

MORE THAN 120 STANDARD PATTERNS, PLUS ANYTHING YOU CAN ENVISION.

- Whether mechanically punched, laser-cut or water-jet cut, we've never met a pattern we couldn't handle.
- Choose standard patterns, submit your own design, or work with us to create a new design.
- Our knowledgeable team will guide you through the process to ensure the right design for your application.
- Proprietary visualization software transforms the product submittal so customers can see their design drawn to scale before production.

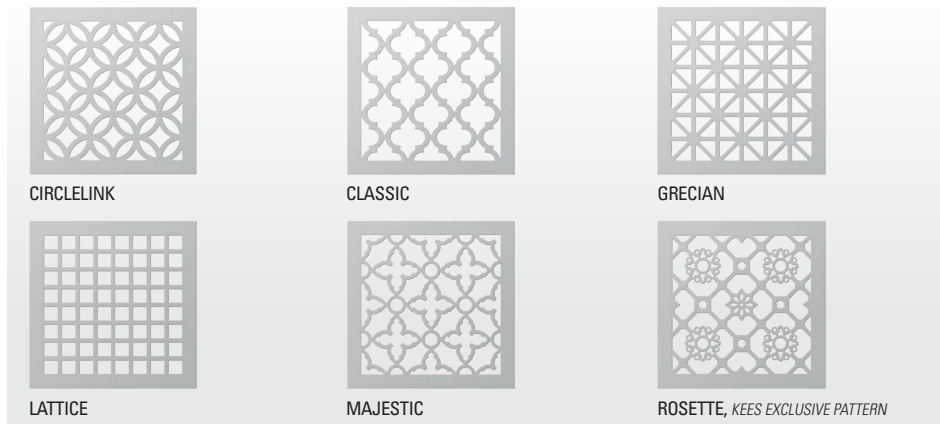

Proprietary Visualization Software
What you see is what you get. See your design before it's manufactured.

KEES.COM | 920.876.3391 400 SOUTH INDUSTRIAL DRIVE, ELKHART LAKE, WI 53020

THE CATHEDRAL OF THE HOLY CROSS,

Boston, Massachusetts, relied on KEES when it underwent a \$26 million renovation that needed to be finished in time for Easter services. Even though custom grille dimensions couldn't be determined until late in the project, KEES came through with 26 decorative brass grille panels—each unique in size to perfectly fit the original woodwork.
