STAINLESS STEEL
DIFFUSERS

OUR STAINLESS STEEL CRAFTSMANSHIP IS PURE BRILLIANCE.

Tough environments require tough solutions. KEES stainless steel grilles and diffusers not only stand up to corrosion from harsh chemicals and high-moisture environments, but look great while doing so. Our unsurpassed craftsmanship is reflected in beautifully polished, scratch-free surfaces. With a broad selection of products and sizes, there's always a solution to meet your needs. Whether you have to meet stringent food-safety requirements or need corrosion-resistant solutions for harsh environments, trust KEES, the stainless steel experts.

STAINLESS STEEL GRILLES

All grilles are available in 304 or 316 stainless steel. Standard satin-polished finish (optional painted finish is available).

BLADED SUPPLY GRILLES

CONSTRUCTION

- Blades are individually adjustable in single or double deflection patterns
- 1/2", 3/4" (Std.), 1-1/2" and 3" blade spacing

BLADED RETURN GRILLES

CONSTRUCTION

- Blades are fixed at 0 or 45 degrees
- 1/2" or 3/4" (Std.) blade spacing

BLADED, PERFORATED AND EGGCRATE GRILLE OPTIONS

SIZE

- Single piece up to 72" x 72"
- Combine multiple sections for unlimited sizing

MOUNTING OPTIONS

- Surface mount
- Plaster frame
- Lay-in panel

ADDITIONAL OPTIONS

- Opposed blade damper
- Subframe—grille removable or hinged
- Filter frame
- Transitions to round duct connection
- Extractor

DRUM LOUVERS

CONSTRUCTION

- Drum can rotate 60 degrees vertically; individually adjustable blades spread air out horizontally

SIZE

- 70" W (max.) x 15" drum (max.)

MOUNTING OPTIONS

- Surface mount on rectangular or round ducts

ADDITIONAL OPTIONS

- Opposed blade damper
- Split drum
- Pole bracket for easy adjustment

PERFORATED GRILLES

CONSTRUCTION

- 3/16" holes on 1/4" centers (Std.)
- Other patterns available

EGGCRATE GRILLES

CONSTRUCTION

- 1/2" or 1" core blade spacing

Our industry leading stainless steel drum louvers are available in a variety of options, including split drum for more air control.

UNRIVALED QUALITY FROM THE STAINLESS STEEL EXPERTS.

- Every day we manufacture stainless steel products to the highest standard and with the shortest lead times.
- Choose from an unmatched selection of stainless steel grilles and diffusers in an unmatched range of sizes.
- Welds are skillfully applied and properly cleaned for long-lasting strength and beautiful appearance.
- Dedicated tooling and machinery prevent cross contamination from lesser materials.
- Visible surfaces are polished for a striking presentation.

STAINLESS STEEL DIFFUSERS

All diffusers are available in 304 or 316 stainless steel. Standard satin-polished finish (optional painted finish is available).

LOUVERED DIFFUSERS

CONSTRUCTION

- 1-, 2-, 3-, or 4-way throw pattern
- Louver blades are fixed and flush with face
- Optional adjustable air pattern controller
- Optional curved, adjustable blades

3-CONE DIFFUSERS

CONSTRUCTION

- 4-way throw pattern
- Step down diffuser

PERFORATED DIFFUSERS

CONSTRUCTION

- 3/16" holes on 1/4" centers (Std.) provide laminar flow for critical environments
- Flush face (Std.), drop face available
- HEPA filter available

PLAQUE DIFFUSERS

CONSTRUCTION

- 4-way throw pattern
- Flush face

LOUVERED, PERFORATED, 3-CONE AND PLAQUE DIFFUSER OPTIONS

SIZE

- 6" x 6" to 36" x 36"
- Larger, custom sizes available

MOUNTING OPTIONS

- Surface mount
- Plaster frame
- Lay-in panel

ADDITIONAL OPTIONS

- Opposed blade damper
- Transitions to round duct connection
- Extractor

SLOT DIFFUSERS

CONSTRUCTION

- Adjustable blades for pattern control

SIZE

- Length: 2', 4' or custom
- Height: Standard, low-profile or extended
- Width: 1 to 4 slots in 3/4", 1", 1-1/2" widths

MOUNTING OPTIONS

- Lay-in or hard ceiling

ADDITIONAL OPTIONS

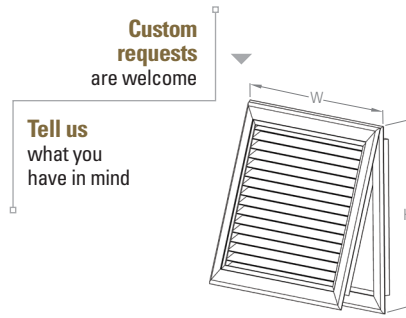

- Tegular or fineline ceiling mounting
- Mitered corners
- Inlet damper mounted in collar
- Exclusive risk-resistant construction for secure environments

High-quality stainless steel craftsmanship ensures lasting performance.

PFIZER frequently trusts KEESS to deliver high-quality stainless steel solutions for its pharmaceutical environments. Recently, KEESS manufactured hundreds of 316 stainless steel return grilles for one of their labs. The optional opposed blade dampers allowed for precise air volume control. When Pfizer needs stainless steel solutions for critical applications and requirements, KEESS delivers.

Since 1974, KEESS has pushed the boundaries of ventilation design. From highly engineered air handlers, diffusers and exhaust hoods, to mixers, louvers and beautiful grilles, our expertise spans numerous product lines and countless custom solutions. Today, KEESS collaborates with engineers, architects and designers from all over to build solutions that ensure optimal indoor air quality and efficiency—all with a sense of style. By carefully examining customer needs and keeping an eye on every detail, we artfully marry form with function to bring the impossible to life. Our founder said it best, "If you can draw it, we can build it." We prove him right every day.
